Cookies, Bars, and Holiday Treat Swap for December Meeting

This is a fun way to share homemade treats and discover new favorites!

*Bring one variety of homemade cookies, bars, or holiday treats. Place them in a container or on a tray. If you want to package them, even better!

*Plan on bringing enough to share, including enough for yourself. Couples may participate together or individually.

*Bring copies of your recipe.

*Please include the cookie name and note any common allergens, such as nuts.

*Everyone who participates will exchange treats and take home a variety to enjoy.

* We will have a Holiday treat table set up. When you come in, you will place the container, label with name and allergen, and recipe copies on the table.

*Before the meeting ends, participants will walk around the table and place some of each item in the container to take home. We will provide containers or plates for you.

*We will send the reminder email out and ask you to let us know if you are participating and how many if you are a couple—1 or 2. Then we will be able to share a number for participants. This will help each participant know how many items to bring….and we can always have extras!
